

Product Data Sheet

BigFixlock P

Connection clamp with pressing joint of carbon steel with M-contour.

- 1 pair (2 x).

Type	Ø pipe		###	Order Code
	DN	External dimension [mm]		
BigFixlock P DN 40	40	42	1	M66259.28
BigFixlock P DN 50	50	54	1	M66259.38

Advantages

The "BBigFixLock quick-connection system is characterised by its quick and easy installation. During installation, the pipes are laid out end to end with a specially shaped sealing ring, and grey cast iron half-shells are placed around the pipes in such a way that they lie in the beading of the pipe ends. The half-shells secure both the pipe ends and the seal in place.
