

First-class multi-functional spray

The only multi-spray

WITH TURBOLINE!

The all-in-one solution

LUBRICANT

BRUNOX® Turbo-Spray® is an outstanding lubricant thanks to a balanced mix of hydrocarbons and the additive **TURBOLINE**.

PENETRATING OIL / RUST REMOVER

Due to its high capillary effect, BRUNOX® Turbo-Spray® is an outstanding penetrating oil that penetrates into the finest hairline cracks in order, for example, to solve seized screws within the shortest time.

CORROSION PROTECTION

BRUNOX® Turbo-Spray® forms a continuous protective film, has the necessary layer thickness and therefore it offers a complete corrosion protection.

CLEANSER

BRUNOX® Turbo-Spray® penetrates under and dissolves both mineral and organic pollutions, thus it removes (almost) all stains easily.

CONTACT SPRAY

BRUNOX® Turbo-Spray® has a very low surface tension and a corresponding adhesion to metals so that water is displaced immediately. This property is particularly useful in electrical contacts and short circuits can be eliminated and prevented.

Maintenance, cleaning, repair, production, storage and transportation of machinery, precision tools, semi-finished and finished products, vehicles, equipment and electrical appliances of all kinds.
